

# PowerFeed

Biological feed additive for fish.

- Help better digestion and improve growth rate.
- Control pathogenic bacteria in gastrointestinal tract and prevent fish diseases.
- Diminish pond water pollution.

## Usage

1. Put 2 tablet (2.5 gram) into 2 litre of drinking water in a bottle.
2. Activate 24 hours
3. Mix it into 20-25 kilo of fish feed (100cc/kilo)  
Feed every meal, everyday, all the way until harvest.
